Press Release

11th EDF EPA Project is continuing its cooperation with the SCCI in giving support to the Private Sector, in particular, the SMEs and Start-ups

A series of training sessions focusing on building the capacity of the private sector, in particular the Small Medium Enterprises (SMEs) and Start-ups was launched late last week.

The trainings are being delivered in March and April, and they will include sessions on Business planning, Business development, Marketing planning, Marketing development, Bookkeeping and Accounting. The trainings will be delivered by GOPA Experts.

The training is being facilitated by the Economic Partnership Agreement (EPA) Support Project, funded by the European Union for the Seychelles Chamber of Commerce and Industry, to enable the organisation to provide support for the SMEs and Start-Ups.
